

Business support services from Mid Western Regional Council (MWRC)

MWRC offer a wide range of support services for businesses in our region.

The main objectives of this service are to:

- generate and facilitate sustainable economic development in the Mid-Western region
- implement economic development strategies for future economic and business growth across the region
- liaise with relevant parties to ensure that community and social development issues are integrated within economic development

The benefits for the business community are direct assistance with:

- Identifying local needs and new business opportunities for local businesses
- Connecting businesses to resources and assistance programs
- Evaluating community concerns and issues impeding development
- Focusing on community actions that will support employment and business activity
- Establishing enthusiasm and business capacity to become involved in new initiatives
- Facilitating co-operative efforts to achieve the most effective use of business resources
